U&B

Specialized in Skin Regeneration

Dedicated to health and beauty,
U&B has undergone specialization and systemization.

About U&B

U&B specializes in the manufacture of skin care equipment, medical equipment, cosmeceuticals and cosmetics.

Dedicated to health and beauty, U&B has undergone specialization and systemization.

Since the launch of its new platform in the beauty business in 2001, U&B has engaged in the R&D of medical devices, cosmeceutical R&D, skin care equipment R&D and the development, investment and marketing of a medical nutrition platform.

U&B Mission

Health
To create more value for a healthy and beautiful life

Hope
To create a developmental environment to grow together with our partners

Passion
To enjoy a 24-hour heart-throbbing life through positive thinking

Respect
To have a customer-oriented mindset through consideration and practice

U&B company profile

2000~2004

- 2000 R&D of medical devices for the establishment of U&B
- 2001 Established U&B (United Nutrition Beauty Business)
- 2001 Concluded clinical and technological cooperation agreement with medical societies
- 2003 Consulted on German MEDICAL Equipment
- 2003 Released a Meso therapy mesogun
- 2003 Released a medical obesity endermology equipment and medical society presentation
- 2003 Released a mid/low-frequency medical device for obesity treatment
- 2003 Introduced the first counseling solution for medical nutrition, vitamin nutrition (Obstetrics and Gynecology, Pediatrics, Dermatology)
- 2004 Released a medical hair care solution to scalp-related hair losses
- 2004 Released a body part-specific fat analyzer

2005~2009

- 2005 Released a medical ND-YAG laser
- 2005 Japanese biotechnology cooperation
- 2006 Launched functional cosmetic solution and renewal cream for medical use / Supplied functional cosmetics such as nail cream etc. for medical use
- 2006 Released natural vitamin C, a regenerative/whitening natural solution for medical use
- 2007 Released a medical meso roller
- 2008 Released a PRP solution
- 2009 Underwent a renewal of the SNAILTOX product line, a functional cosmetic solution
- 2009 Established the Medical Beauty Academy
- 2009 Established the Esthetic and Healing center
- 2011 Signed an academic-industrial cooperation with Three Beauty University

2010~2021

- 2012 Concluded cooperation agreements with partner institutions such as the International Beauty and Health Society
- 2013 Established a separate U&B corporation
- 2015 Launched high-frequency skin obesity treatment device
- 2016 Released the CIESKIN MTS Toning Stamp and CIESKIN Expert solutions
- 2017 Released the CIESKIN Platinum G9 Cream and Solution
- 2018 Developed skin care device CIESKIN Aoto Face
- 2019 Selected Korea leading brand in Korea- Asean Summit
- 2020 A Clinical trial Successful for alleviating inflammation of LMD extract
- 2021 Recognized as a promising export company by the Korea government.
- 2021 Selected as the best technology company

with U&B

UNB is participating in many overseas Exhibitions and loved worldwide.

We are exporting our products to many countries and want to grow up with global buyers,

U&B purpose

Care for a healthy and beautiful life

- Worldwide export of bio-care system Complete program for inner and outer beauty

Health-Customer Care

To create more value for a healthy and beautiful life

Custom-Made Nutrition

Vitamin and mineral therapies based on unique nutritional therapies

Mental Stability and Balance

Complete program for inner and outer beauty

Personalized Big Data

Initiated the Clinical Nutrition Therapy System with the aim of personalized care

We are running a beauty health program for healthy beauty.

05 *Company Introduction*

1. Conducted R&D of skin and obesity medical devices
2. Developed skin care devices
3. Developed dermatoplastic cosmetic solution for medical use
4. · Established the Medical Beauty Academy
· Established the U&B Healing Center
5. Medical nutrition diagnosis and prescription program Safe for mothers and children Cosmetics manufacturing and development of natural health functional food
6. Beauty solution training and operation system support

Beauty health program

- + U&B's anti-aging programs combined with nutrition
- + CIE balance program
- + We have introduced fundamental anti-aging and problem improvement programs

Customer service system

Customer diagnosis program

management program

Implementation of home care program

SKIN REGENERATION & MEDICAL BRAND

CIESKIN

- ✓ Anti-aging and elastic program
- ✓ Whitening care program Trouble
- ✓ acne care program
- ✓ Recycle care program
- ✓ Scalp hair loss care program
- ✓ striae distensae care program
- ✓ CIE balance program
- ✓ Obesity care program

Global program expertise

We U&B can present the sectoral vision for global health growth programs with experts in each field.

We bring biotechnology and health programs together.

We create added value as a specialized company.

We can help the growth of differentiated hospital and esthetic programs in Korea.

We provide advanced operating programs.

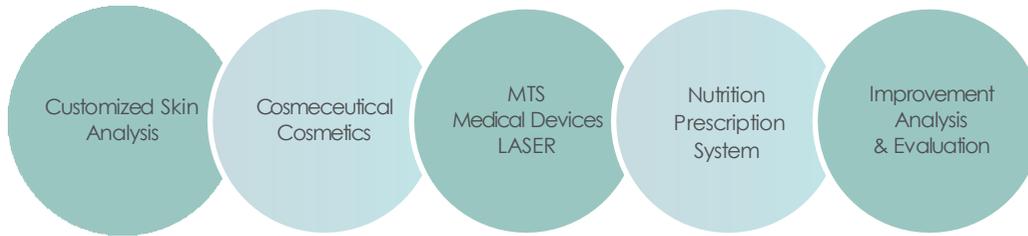

We are preparing various positions and products for export.

BIO Cosmeceutical Cosmetics

For the research and development of biological technology for beautiful and healthy skin, we U&B have developed world-class research technologies and new products in cosmeceuticals and medical care in cooperation with research institutes, universities and medical institutions.

- ✓ A Biologically active recombinant protein product line highly effective for antioxidant, antibacterial and regeneration
- ✓ Developed peptide-based products
- ✓ Developed lactic-acid-bacteria-based products
- ✓ Develop scalp-hair-based product
- ✓ Developed products for atopic dermatitis and various skin diseases

Customized Skin Care System

For the research and development of biological technology for beautiful and healthy skin, we U&B have developed world-class research technologies and new products in cosmeceuticals and medical care in cooperation with research institutes, universities and medical institutions.

The best antioxidant properties of platinum

- ✔ Antioxidant efficacy of gold on the skin
 - The most essential factor and antioxidant activity to maintain youthfulness
 - Development of cosmetics containing gold
- ✔ Colloidal Gold Composite Technology
 - Optimized for skin application with optimum gold particle size of one billionth of a meter
- ✔ Synthesize with new technology Colloidal Gold
 - Colloidal Gold List
 - Octagold
 - Octa Perfect Platinum
 - Octa Perfect Gold

Component Description

Platinum and 9 Growth Factors Science Program

EGF

EGF (Epidermal Growth Factor)

Epithelial cell growth factors which act on epithelial cells forming the skin

PGF

PGF (Placental Growth Factor)

The core substance that enables the bio-active functions of the placenta and placentin

HGH

HGH (human Growth Hormone)

It is involved in the growth, differentiation and regulation of various cells including skin cells.

SOD

SOD-1 (Superoxide Dismutase 1)

It is one of the most powerful antioxidant proteins in the body

IGF

IGF-1 (Insulin-like Growth Factor 1)

Performs a variety of cellular bio-active functions and associates with EGF and other growth factors to aid in the growth and division of skin cells

KGF

KGF-1 (Keratinocyte Growth Factor 1)

KGF, also known as FGF7, is a major growth factor that stimulates differentiation, growth and bioactivity of keratinocytes constituting the stratum corneum of the skin

VEGF

VEGF (Vascular Endothelium Growth Factor)

It is an important factor for anti-aging, the regeneration of damaged skin, and the regeneration and growth of hair

VEGF

VEGF (basic Fibroblast Growth Factor)

bFGF promotes the division and growth of keratinocytes and stimulates fibroblasts to promote the synthesis of ECMs such as collagen, fibronectin, and elastin.

ARGEN
E

Acetyl Hexapeptide-8 (Argireline)

It is a protein peptide mimicking SNAP-25 (Botox component)

12

G9 SCALP SOLUTION

It is a premium growth factors and specialized proteins by CIESKIN biotechnology

Anti-aging

Strengthen skin barrier

Brightening

Moisturizing

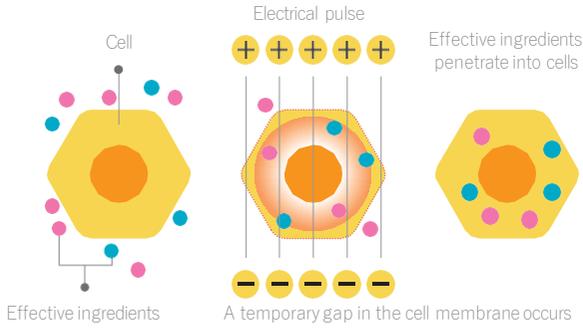

Elasticity

CIE Electrophoresis

We U&B which specialize in the manufacture of skin care devices have developed a new class of skin absorption technology by combining biotechnology with CIE to revitalize your skin and to restore your beautiful and healthy skin. Through the research and development of specialized skin care devices based on skin absorption helping skin revitalization, we U&B have developed world-class research technologies and new products in cosmeceuticals and medical care in cooperation with research institutes and universities.

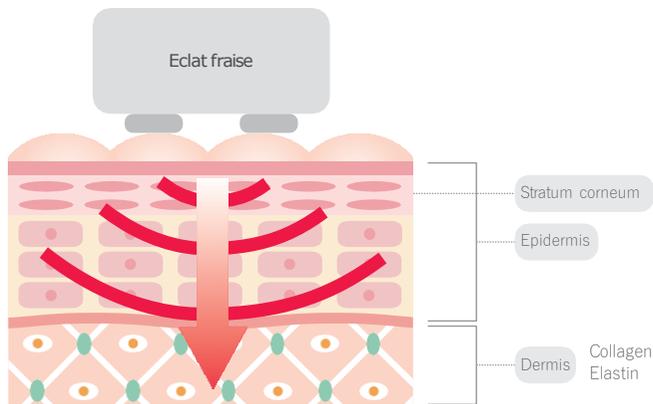

CIE Electrophoresis

The principle of Contrastive Therapy is used to maintain homeostasis on the skin surface in contact.

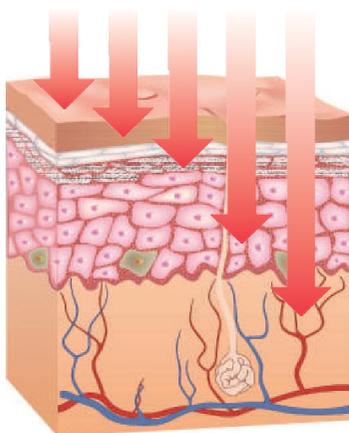

✔ Cell current (electrical pulse)

- © A temporary gap in the cell membrane occurs
- © Effective ingredients penetrate into cells

✔ Electroporation

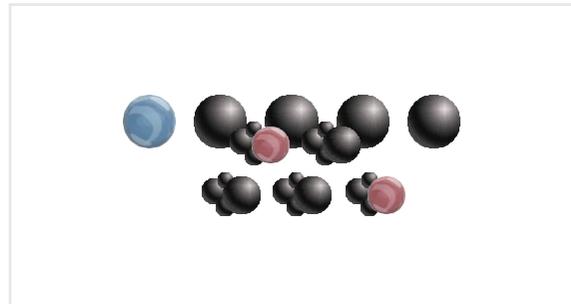

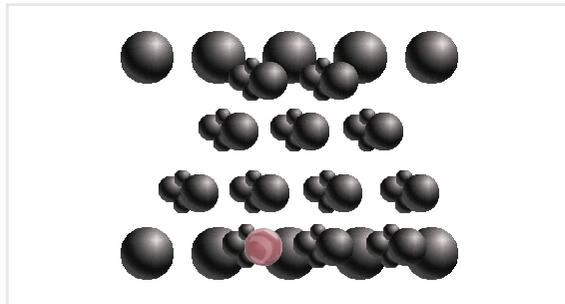

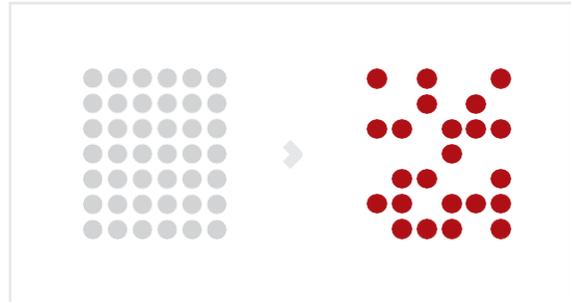

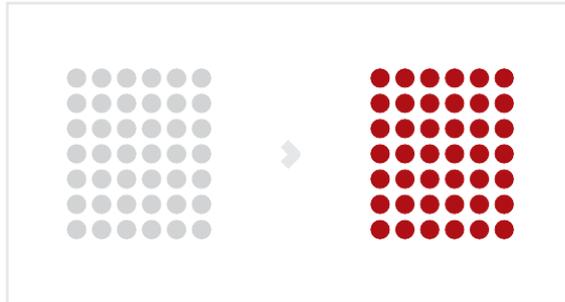

Polymers like hyaluronic acid and collagen penetrate into the dermis

✔ Multi-micro pulse and Quid Vector technology

Skin tissue rejuvenation

CIE absorption process

Absorption of solution during CIE application

Other forms of ionization

80%~90% of active ingredients

5%~10% of active ingredients

Epidermis / Derma

Epidermis

High Concentration on This Application Area

Dispersion On Adjacent Tissue

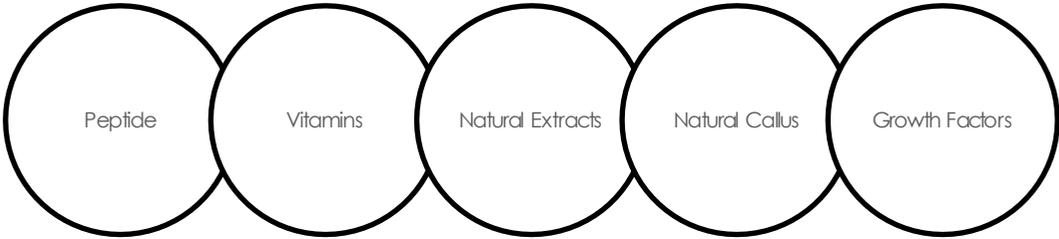

United Nutrition
Beauty Business

*CIESKIN's
unique biotechnology
combination*

It is a growth factor protein product produced by our matchless recombinant protein technology all over the world. We have produced the best quality product based on our world- class biotechnology and protein chemistry.

Nutrition

VITAMIN

- ✓ Though small in quantity, it plays a very important role in regulating essential nutrient bioreactors, and it also affects cell protection and metabolism which changes food into energy.

Medical nutrition therapy

✔ Introduced the first vitamin-mineral preventive medical treatment system

We have introduced Korea's first vitamin and mineral therapies based on unique nutritional therapies to the Obstetrics and Gynecology and Pediatrics.

✔ Introduced nutrition therapy business system into medical field

We have presented a new direction of preventive medicine by introducing vitamin and mineral therapies to all medical fields such as internal medicine, family medicine, dermatology, obstetrics and gynecology, etc.

✔ Engaged in clinical nutrition counseling training and presented new directions on nutrition as preventive medicine

We U&B have introduced Korea's first medical nutrition prescription system. We have invigorated programs that connect the health network between doctors and customers and use a personalized prescription system for deficient vitamins and minerals.

✔ Initiated the Clinical Nutrition Therapy System with the aim of personalized care
